Report on World Aids Day -06/12/2024

Pulla Reddy Institutions have organised World Aids day Program. In this regard, the NSS unit of college has invited the Principal, HOD and Administrative officer, V.S.Prakash Rao and other staff members to initiate the program.

World Aids day was conducted on 06.12.2024 in the Government area hospital, Narsapur by performing activity like

1. Awareness activity such as distributing pamphlets to inward patients by active NSS volunteers.
2. Pledge by NSS Volunteers was taken to disseminate information and prevent stigma discrimination related to AIDS day, 2024.

In this regard, all the students of B.Pharm., Pharm.D and M.Pharm. had participated actively by creating awareness and highlightening the importance on Aids day.

So, herewith we are sharing few glimses of the event.

1. NSS Volunteers distributing pamphlets about Aids day

2. Students creating awareness to inward patients in hospital

3. Group photo of students with NSS P.O. and Faculty members

Outcome of the Programme:

World AIDS Day aims to raise global awareness about HIV/AIDS, encourage international solidarity, and promote progress in prevention, treatment, and care by bringing people together to discuss the pandemic, commemorate those lost to the disease, and celebrate advancements in combating HIV, ultimately working towards ending the stigma surrounding the virus and supporting people living with HIV.

Key outcomes of World AIDS Day include:

1. Increased awareness:

Public education campaigns and events on World AIDS Day help raise awareness about HIV transmission, prevention methods, and the importance of testing.

2. Reduced stigma:

By highlighting the experiences of people living with HIV, World AIDS Day can help challenge stigma and discrimination associated with the disease.
